

Anti-Cellulite Massage

SPA CIRCUIT INCLUDED ANTI-CELLULITE MASSAGE + JET SHOWER OR BYTHERMIC SHOWER

Anti-Cellulite massage works on different levels. First, it improves circulation and softens the fatty areas and releases them over time. By kneading and gentle rubbing, it soothes the tension in the muscles improving blood flow. Next, it targets the lymphatic system and drains all the accumulated fluids associated with cellulite as well as breaking up the fatty deposits and expel excess water. Finally, anti-cellulite massage will work through the fatty lumps, which are due to your body's toxins that have settled between the tissues, eventually ridding them from your body.

30min.

45€ /per person
(VAT INCLUDED)

Flotarium

SPA CIRCUIT INCLUDED

Floating is a new concept of health, beauty and well-being for everyone who wants to improve his quality of life. Imagine coming back to the mother uterus, which for a moment do not exist gravity and feel like in a spaceship, or that you float without any effort as in the Dead Sea. This is already possible thanks to the "flotarium", a great futurist bath that not only allows experiencing the weightlessness, but it provides a deep physical and mental relaxation isolating of all the external stimuli. Besides weightlessness, the relaxing combination of warm water (36°C), silence and darkness (also there is light inside), help to create a free environment of external stimuli, generating – immediately – a very deep condition of physical and mental relaxation.
